VARIO M1

VARIO M1 - a stacking box system with unlimited possibilities.

The VARIO M1 stacking box system is based on a 40 cm grid. The individual units can be combined again and again without tools and in an uncomplicated way. Shelves, drawers, filing drawers, front flaps and three base variants serve as equipment.

As a supplement to the M1 stacking box system, VARIO has developed the filigree M1 frame element, which now allows for an even greater range of variants.

VARIO M1 can be used to create spacious side and highboard units that can be easily divided into smaller units as required. The high modularity then allows completely new constellations.

All VARIO M1 stacking boxes can be equipped with continuous cover panels in different surfaces and material thicknesses.

Stacking box
depth: 400 mm
width: 400/800 mm
height: 200/400/800 mm

Design: Prof. Klaus Michel (2003)
