

VARIO M9

The VARIO M9 cabinet system impresses with large-area and visually calm sliding door fronts.

The penetration and overlapping of living and working worlds has long since taken place in many areas. M9 meets the demand for a representative and high-quality ambience in the office environment as well as in private rooms. Modern real wood veneers, classic plain tones or the super-matt soft-touch surface make M9 an exclusive solitaire.

VARIO M9 is a sideboard system with large sliding door fronts per carcass. When closed, they form a continuous surface; only when opened does one door run in front of the other. The high-quality and concealed running. A high-quality hardware system ensures smooth operation of the doors. The handle strip can be selected in horizontal arrangement with a handle piece or as a vertically continuous aluminum strip. The standard range of interior fittings includes shelves and drawers. However, individual fittings can also be realized on request.
