

VARIO CHANGE conference

The VARIO CHANGE conference table brings movement into the meeting culture: the change from seated to standing conferences can be carried out very easily.

Regardless of whether it is a linked table system or a single meeting table, the CHANGE conference table can "grow" from a table with a height of 650 mm to a standing table with a working height of 1250 mm with an electromotive height adjustment.

Another special feature is the shape of the table tops: a generous oval looks modern, representative and elegant. The more classic boat shape, on the other hand, offers ideal conditions for maintaining good eye contact, especially in meetings with many participants.

Together with the VARIO CHANGE work and management tables, the VARIO CHANGE conference table offers a harmonious overall appearance thanks to the consistently maintained design language of the runners and outer columns. But also as a solitary table, it does justice to its role as a special place and communication island in the office, both in terms of design and function.

Thanks to the use of aluminium and the extremely reduced use of materials, VARIO CHANGE is significantly lighter than most height-adjustable tables. At the same time, it is particularly stable thanks to its unique construction.

Table heights

650 - 1250 mm (with electromotive height adjustment)

650 - 890 mm (with grid adjustment)

Table top thicknesses

12 mm (solid core), 13, 19, 25 mm

Oval table top dimensions

Width 1800, 2000, 2200, 2400 mm

Depth 1000, 1100, 1200, 1280 mm

Dimensions of table top boat shape

Width 1800, 2000, 2200, 2400 mm

Depth 700 - 1000 - 700 mm

Awards

VARIO CHANGE received the renowned Red Dot Design Award 2014 for its outstanding design quality.

Design: Gerhard Bernhold and Uwe Sommerlade (2013)
