

VARIO LET'S TALK FLIP

VARIO LET'S TALK FLIP - is the mobile table programme for ad-hoc conferences or seminars.

The swivelling table top is easy to operate with the help of a release lever. This allows the tables to be stored in a space-saving manner and moved with ease thanks to the high-quality castors. With a whiteboard surface (non-magnetic), the tabletop can be used in the raised position for presentations and seminars.

In the CLASSIC version, the folding frame is black powder-coated with high-gloss polished aluminium foot brackets; the surface of the frame in the ECONOMY version is either white, black or aluminium white powder-coated.

Table heights

720 mm (fixed height, seat height)
