

VARIO ICON work table

VARIO ICON is a classic four-leg system, which stands out for its clear architectural design.

High-quality accessories, a "floating" work surface and a design strongly oriented towards architectural principles create an unobtrusive but convincing image. Two continuous side frames in combination with crossbars form a structurally stable unit. Above the side frame is a joint that makes the tabletop appear to float. ICON can be used to create double workstations, spacious group workstations and even conference systems. The range also includes standing workstations and benches.
