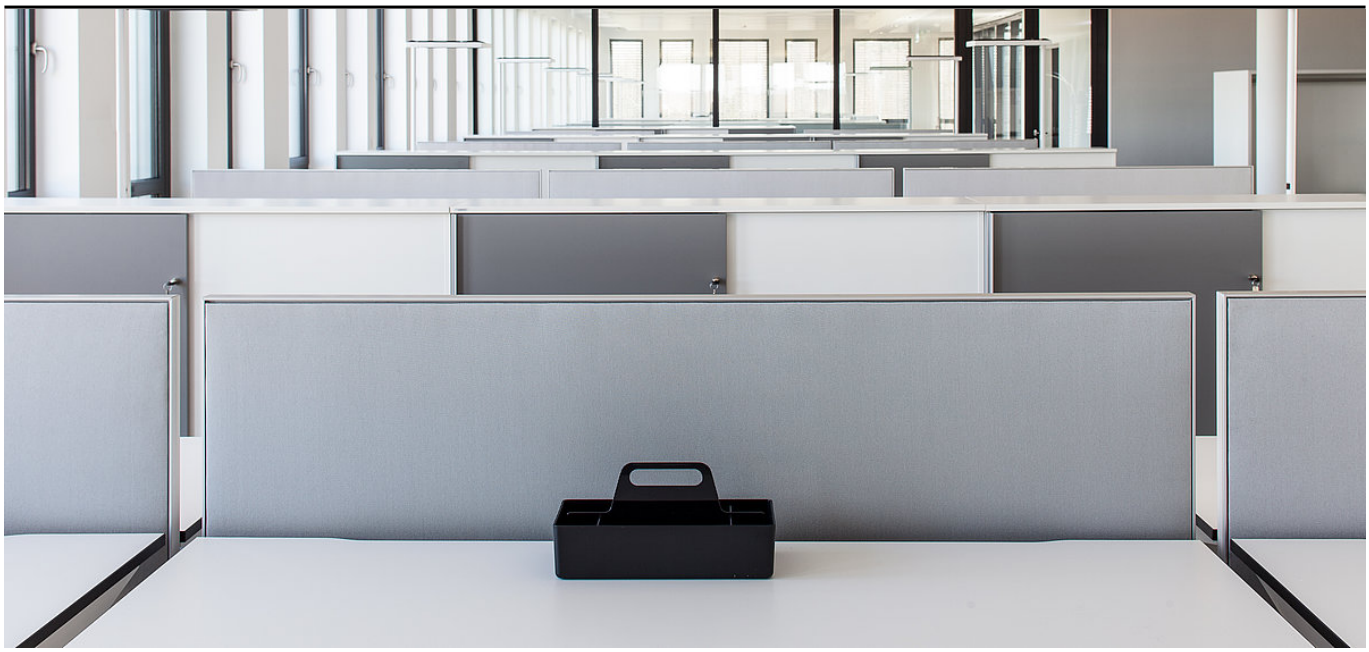
VARIO S40



VARIO S40 is a slim wall system, with all-round aluminum profile and clear design.

The economical, functional S40 wall system brings calm to the office with its discreet design. The free-standing partitions - connected in rows or at a 90° angle - structure and zone open spaces in a versatile and flexible way. The matching display and organizer panels have the same wall thickness as the movable walls (40 mm) and fit the VARIO table systems ICON, STAGE and CHANGE. Organizational elements such as paper and utensil trays can be hooked into the surrounding aluminum profile as well as into the center-integratable organizer strip of the privacy panel. The partition wall system can also be equipped with effective acoustic features and then achieve absorber class C. More information on acoustic equipment in our AKUSTIK brochure in the download area. The high wall elements are equipped with adjustable glides or cantilever feet on the floor side.
