

VARIO S31

VARIO S31 is a modern frameless wall system.

Despite the low wall thickness of 31 mm, it is highly effective acoustically due to the fabric-covered surface and can be used very well as workplace screening. In addition, it is very light, mobile and quick to assemble: various connectors allow linear interlinking, cross or corner configurations. The wide range of colors of the cover fabrics and a very good price/performance ratio allow S31 to be used in a wide field.

The wall elements have rounded corners with a radius of 30 mm, the wall thickness is 31 mm - this is where the name S31 comes from. For S31, two fabric-laminated lightweight panels are glued together with a honeycomb core. Two vertical, invisible aluminum profiles are incorporated in the wall on the left and right to accommodate the pins of the tabletop clamps and stand elements. This allows very fast assembly and disassembly of the walls.

More information on acoustic equipment in our AKUSTIK brochure in the download area.

Partition walls

height 1000 / 1200 / 1400 / 1600 mm
width 600 / 800 / 1000 / 1200 mm
wall thickness 31 mm

Tabletop display

height 387 mm (without stand element)
width 565 / 665 / 765 / 865 / 965 mm
wall thickness 31 mm

Visible panels (above the table top)

height 387 / 600 mm (without table top clamp)
width 1200 / 1400 / 1600 / 1800 / 2000 mm
wall thickness 31 mm

Organizer panel (behind the table top)

height 600 / 750 mm
width 1200 / 1400 / 1600 / 1800 / 2000 mm
wall thickness 31 mm

DUO panel (on the middle crossbar of DUO tables)

height 750 mm
width 1200 / 1400 / 1600 / 2000 mm
wall thickness 31 mm
