

# VARIO CHANGE management

CHANGE Management is a successful symbiosis of work and meeting table – management is communication.

Conference and work tables are increasingly merging into one unit. VARIO CHANGE Management is the answer to this new requirement and enables quick and unpretentious conferences or meetings directly at the workplace - whether sitting or standing. The tabletop size of maximum 2200 x 1200 mm ensures discretion, sensitive documents find sufficient distance to visitors.

The soft-touch surface of the table tops has a very high-quality and pleasant feel, and the height is adjusted via a memory hand switch. With an optional swivel arm for the monitor, presentations in small circles or video conferences can be facilitated quickly. A generous cable flap provides convenient access to additional connections. This makes it easy to integrate devices from other participants, for example.
