

# VARIO CHANGE

VARIO CHANGE is a modern table system that meets the highest demands in terms of ergonomics, functionality and timeless design.

As a counter-design to the usual, highly standardised table systems, VARIO CHANGE represents a product with personality and independence. VARIO CHANGE is a sit-stand table in which the design, material and construction of conventional height-adjustable frames have been rethought. Linear linking and angled add-on tables are just as much a part of the overall system as free-form tables, meeting tables and conference systems.

The C- and T-leg versions of VARIO CHANGE are formally almost indistinguishable and form a design unit when used together in office and conference rooms. The runners and the outer columns appear to be cast from one mould. Thanks to the use of aluminium and the extremely reduced use of materials, VARIO CHANGE is significantly lighter than most height-adjustable tables. At the same time, it is particularly stable thanks to its unique construction. With its many variants and extension options, VARIO CHANGE offers a new generation of individual workstation - as a high-quality, prestigious office table for management, as well as in an open-plan office or home office.

VARIO CHANGE as a conference table makes it very easy to switch from sitting to standing conferences - both for individual meeting tables and for linked table systems.

## **Table heights**

650 - 1250 mm (with electromotive height adjustment)  
650 - 890 mm (with grid adjustment)

## **Table top thicknesses**

13, 19, 25 mm

## **Table top dimensions**

Width 800 - 2200 mm  
Depth 600 - 1000 mm

## **Tabletop corners**

90° corner or 40 mm corner radius

## **Awards**

VARIO CHANGE received the prestigious Red Dot Design Award 2014 for its outstanding design quality.

Design: Gerhard Bernhold and Uwe Sommerlade (2013)
